The AISTS MSA, a unique programme

Organised by the AISTS (International Academy of Sports Science and Technology), the AISTS MSA is a unique postgraduate programme in sports management held annually in Lausanne, the Olympic Capital. Over the course of one year, participants are trained by experts in sports and academics, in the following multi-disciplinary fields applied directly to sport:

- Management & Economics
- Technology
- Law
- Sociology
- Medicine
The AISTS MSA degree is co-signed by some of the best academic and technology institutes of Switzerland: The Ecole Polytechnique Fédérale de Lausanne (EPFL), the University of Lausanne, the University of Geneva and the Swiss Graduate School of Public Administration (IDHEAP).

The AISTS MSA is aimed at sports-minded professionals wishing to achieve a stronger skill set for their existing or desired career in the sports industry. Candidates to the programme are fluent in English, have an undergraduate degree, a master’s degree and/or work experience, and are interested in developing or strengthening a career in sports management. Programme participants come from a wide range of nationalities and professions, but they all have the same goal of Mastering Sport.
AISTS MSA

work experience requirements

In addition to course requirements, candidates for the AISTS MSA degree must also complete at least the equivalent of eight weeks of full time work in the sports industry. Past participants have completed these requirements in the form of short term work or by securing full time jobs with organisations such as the International Olympic Committee, International Federations, sports organisations, sports marketing agencies, and sports departments.

To contact or recruit AISTS MSA 2012 Participants:
Email: info@aists.org
Phone: +41 (0)21 693 85 93

About AISTS

AISTS was founded in 2000 by the International Olympic Committee (IOC), the Ecole Polytechnique Fédérale de Lausanne (EPFL), IMD Business School, the University of Lausanne, the University of Geneva, the Swiss Graduate School of Public Administration (IDHEAP), Ecole Hôtelière de Lausanne (EHL), the City of Lausanne and the Canton of Vaud. AISTS responds to the needs of the sports industry by focusing its activity on three key pillars:

**EDUCATION**
Educating leaders in sports management through adapted education programmes.

**APPLIED RESEARCH**
Providing knowledge and expertise in relevant fields applied to the sports environment.

**CONNECTIONS**
Acting as a strategic connector in the world of sport.

AISTS Mission

The primary mission of AISTS is to Master Sport by positively contributing to sports management through a multidisciplinary approach to education and sciences and by remaining at the forefront of the sports industry’s development and the Olympic movement.
January will be a time of culture, education and sport - a wonderful beginning to the year for 1,000 young athletes and their entourage. Innsbruck will host the first Winter Youth Olympic Games. It will be a fantastic celebration!

This summer, time will stand still - all energy and attention will be focused on London. More than ever, London will be the centre of the world, a concentration of genius... in all its forms. It will be a truly outstanding celebration!

The Olympic Games mark a point in time; for each edition, and for each one of us, there is a Before, and there is an After: In London, sports performances will be exceptional and emotions will be at their peak on many occasions. For the 2012 AISTS MSA class, it will be no different… Before and After: The year ahead is a deep dive into the fascinating and captivating world of sport.

The AISTS offers you the best conditions for your “life choice” to materialise. Connections, networks, expertise and quality of its professors have contributed to the excellent reputation of the institution, founded in 2000. Your interest and absolute dedication will be the final ingredients needed for joining one of many organisations in the world of sport.

May 2012 be a year of excellence, friendship and respect! May the Olympic values drive all of us in 2012!
We at FIBA (International Basketball Federation) have a clear vision upon our sport and where we want to be. We have a mission that we pursue every day with set values which guide us throughout our work. To achieve our mission, FIBA relies on people with a great passion for sport and with exceptional skills and expertise.

We have a strong relationship with AISTS and have for several years now offered participants of the AISTS MSA (Master of Advanced Studies in Sports Administration and Technology) the opportunity of completing their work experience with us. We have always been satisfied by the exceptional knowledge and motivation that some of the participants have demonstrated, and are happy to count among our employees a number of AISTS MSA alumni.

We also had the opportunity to witness ourselves the high quality of AISTS academic programmes from having some of our own staff members participate in AISTS open modules and are convinced of AISTS’ remarkable experience when it comes to teaching sport management.

We value education very much and appreciate those that are willing to continue to learn every day or through courses such as those prepared by AISTS. We look forward to continuing working with the Academy and wish the AISTS MSA class of 2012 much success in their studies.
